PROFESSIONAL SUMMARY

B.Tech Computer Science and Engineering student (2023–2027) with hands-on full-stack development experience and current exposure to professional software workflows as an IT Intern, Application Development & Support at Transsion India. Skilled in Java backend development using Spring Boot, REST APIs, JWT authentication, and MySQL, paired with React.js on the frontend. Experienced in building, securing, and deploying full-stack applications on AWS (EC2, RDS) with Nginx and HTTPS. Strong foundation in Object-Oriented Programming, Data Structures & Algorithms, and relational database design.

TECHNICAL SKILLS

Languages: Java, C++, JavaScript, MySQL
Backend: Spring Boot, REST APIs, Spring Security, JWT
Frontend: React.js, HTML, CSS
Databases: MySQL, JPA/Hibernate
Cloud & Deployment: AWS EC2, AWS RDS, Nginx, Vercel, HTTPS
Tools: Git, GitHub, Maven, Swagger/OpenAPI, VS Code, Eclipse
Core Concepts: Object-Oriented Programming, Data Structures & Algorithms, Database Management

EXPERIENCE

Transsion India *Noida, India*
IT Intern, Application Development & Support — Aug 2026 – Present

- Contribute to application development and support activities within the Information Technology Department under the guidance of the IT/Application Development team.
- Gain hands-on exposure to application development, debugging, troubleshooting, and application maintenance in a professional IT environment.
- Apply programming and software development concepts to practical, production-aligned tasks.
- Follow professional software development and application support workflows and documentation standards.

Dr. Shakuntala Misra National Rehabilitation University (DSMNRU) — *Website Development Assistant* *Lucknow, India*

PROJECTS

BlogSpace — Full-Stack Blog Application
Java, Spring Boot, React, JWT, MySQL, AWS

- Developed and deployed a full-stack blogging platform with a React frontend and a Spring Boot REST API backend.
- Implemented JWT-based authentication and REST APIs for blog management and user interactions.
- Built CRUD operations, search, pagination, categories, comments, and image upload functionality.
- Integrated MySQL for persistent application data, hosted on AWS RDS.
- Deployed the backend on AWS EC2 behind an Nginx reverse proxy with HTTPS for secure communication, and the frontend on Vercel.

Employee Management & Attendance System
Java, Spring Boot, React, MySQL

- Building a full-stack employee management and attendance application with REST APIs for core workflows.
- Integrating MySQL for persistent employee and attendance data.
- Developing authentication and end-to-end frontend-backend communication.

EDUCATION

Dr. Shakuntala Misra National Rehabilitation University (DSMNRU), Lucknow *2023 – 2027*
Bachelor of Technology (B.Tech), Computer Science & Engineering
Relevant Coursework: Data Structures & Algorithms, Object-Oriented Programming, Database Management Systems, Operating Systems, Computer Networks

LANGUAGES

English, Hindi
